JAISREE RAMESH

FRONTEND DEVELOPER

Frontend Developer with 3+ years of experience building responsive, user-focused web applications using React and TypeScript. Skilled in end-to-end feature development, performance optimization, and reusable component design. Collaborative and self-driven, with experience working in fast-paced, remote-first environments. Experienced in integrating frontend applications with APIs and real-time data streams. Passionate about translating UX/UI designs into polished, interactive interfaces that enhance user experience.

PROFESSIONAL EXPERIENCE

- Tuleva AG** 2022 - 2025
Junior Software Developer
 - Owned feature development for multiple React applications end-to-end, including real-time dashboards, planners, and interactive components.
 - Developed reusable React component libraries and published them as NPM packages for consistent UI across projects.
 - Collaborated closely with designers, backend engineers, and product managers to deliver high-quality, performant features.
 - Implemented performance improvements including lazy loading, code splitting, and optimized state management.
 - Built SPFx SharePoint Webparts and Power Apps with Dataverse, demonstrating ability to integrate complex frontend features with backend services.
 - Ensured responsive design and cross-browser/device compatibility for all applications.
 - Translated UX/UI designs into polished, interactive interfaces, maintaining high usability standards.
 - Assisted in the integration of real-time data streams (SignalR/WebSocket) for live dashboards and notifications.
- Yentha.com** 2010 - 2012
Portal Operations - Executive
Trivandrum, India
 - Managed and maintained portal content and supported content management through information and media research.
 - Wrote social media posts and travel blog articles in collaboration with marketing and sales teams.
 - Assisted in the planning, monitoring, and optimization of online campaigns.
